

## **Mendocino's Upcoming Food Forest Community Garden**

Dear Friends,  
Exciting new things are happening at the Community Center of Mendocino's community garden! I am hoping its revitalization will interest you.

The garden will be reopening as "The Gateway Garden" named in honor of the beautiful new gate recently created for us by Daniel Zirbes, and also highlighting the idea that this garden is a gateway for bringing many good things to our north coast community, beyond the garden boundaries. Thank you so much, Daniel!

Traditional individual plots will be offered, as well as an educational community for cooperatively gardened plots for member shares, donations and marketing. Food permaculture and gardening workshops will be offered, exploring ways to meet human needs while working with nature rather than against it.

There are also many other ways to become involved, gardening or not! Come to our next meeting to find out more.
